## Description

- suitable for the installation and removal of the bearing bushes in commercial vehicle spring suspension
- the slotted bushes can be effortlessly preloaded using the clamping block and the accompanying half shells and thus adjusted to the installation dimensions
- includes 12 t hydraulic cylinder, especially in the construction of fixed bushes
- the hydraulic cylinder is made for universal usage
- supplied without hydraulic pump
- optional: Hand pump 640.0010
- optional: Air Hydraulic Pump 640.0020
- optional: Electric Hydraulic Pump 640.0030
- special installation method that protects the bush via parallel working tensioning elements
- the function of the bearing bush is retained
- simple handling and quick assembly times
- safe working
- suitable for bush change directly on the vehicle
