

Pipe pull-in pliers, angled, 225 mm

Article No.: 123.0051

EAN: 4042146682739

RRP: €67.19 *

Description

- perfect for connecting metal pipes with the same diameter, such as waste, ventilation, extraction, smoke and discharge pipes
- the ends of the pipes are narrowed during the process
- guarantees fast, exact, simple and precise connection
- embossing punch for all round and square pipes
- optimised utilisation through angled head
- tapered to 41.3 mm with a single press
- with five cutters = three bottom and two top cutters
- extremely robust and reliable
- self-opening with a clamping facility
- optimum transmission ratio
- with hanging hole
- two component handle
- plier body made of steel

Properties

Form:	angled
Function attribute 1:	self opening
Handle:	2 component handle
Material1:	steel
Packaging contents:	1
Packaging height, mm:	50
Packaging length, mm:	123
Packaging width, mm:	269
Total length mm:	225
Weight [g]:	440
