

## Teflon crank seal remover and installer set, 9 pcs

Article No.: 150.3635  
EAN: 4042146764473  
RRP: €118.15 \*

### Description

- suitable for the damage-free and correct assembly and removal of radial shaft seals and drive shaft circlips
- for tight-fit application on engine shafts such as crank shaft, cam shaft or intermediate shaft
- can used universally for radial washers in diameters from 23.0 mm to 35.0 mm
- time- and cost-efficient
- no need to strip the engine
- prevents damage to the aluminium fits
- prevents the ring from becoming loose
- expansion set for use in connection with 700.1280

### Properties

**Packaging contents:** 1  
**Packaging height, mm:** 60  
**Packaging length, mm:** 125  
**Packaging width, mm:** 75  
**Parts in the set:** 9  
**Weight [g]:** 404

### Consists of
