

Camber setting tool for BMW

Article No.: 150.1821

EAN: 4042146480427

RRP: €139.19 *

Description

- ideally suited to setting the camber on the front axle
- it is used after knocking out the locating bolt of the strut bearing in a downwards direction via the spring strut bearing
- quick and correct work without a great amount of effort
- one-man operation
- the adjustment process is carried out via the exact alignment of the upper spring strut bearing
- without this tool the correct and exact adjustment of the camber is almost impossible
- aluminium
