

Low fuel pressure diagnosis set, 14 pcs

Article No.: 150.1845
EAN: 4042146601822
RRP: €1,560.28 *

Description

- ideal for the quick and easy testing of low pressure circuit (flow pressure and return pressure measurement)
- quick to find leaks
- fits all common vehicles
- the pressure loss inspection is carried out via the manometer
- quick and efficient use
- for the diagnosis of the following basic tests: the supply of fuel from the tank, air bubbles in the fuel system, impurities in the fuel
- in durable plastic storage case

Properties

Packaging contents: 1
Packaging height, mm: 120
Packaging length, mm: 480
Packaging width, mm: 430
Parts in the set: 14
Weight [g]: 4000

Consists of
