Description

- MID-calibrated
- LCD display
- installation on top-hat rail
- pulse output
- for all efuturo wallboxes with 3.7 kW or 7.4 kW output

This electricity meter is suitable for installation in our single-phase efuturo 3.7 kW or 7.4 kW wallboxes. The meter is installed on the top-hat rail in the wallbox and is required to calculate the energy consumption while charging your electric or hybrid vehicle. The MID calibration means that the electricity meter is approved for consumption billing.
