

efuturo electricity meter for top-hat rail, MID-calibrated, 3-phase, 11 or 22 kW

Article No.: 117.7933

EAN: 4042146865323

Promotional price: €151.00 *

Description

- MID-calibrated
- LCD display
- installation on top-hat rail
- pulse output
- for all efuturo wallboxes with 11 kW or 22 kW output

Due to the Wallbox's very small housing size, it is unfortunately not possible to integrate an electricity meter into our efuturo Wallboxes delivering 11 kW or 22 kW. We offer an electricity meter separately instead. This can be easily affixed by an electrician in the switch cabinet to a profile rail and connected in front of the Wallbox. With the installed electricity meter you can read the energy consumption. This allows you to monitor your energy consumption. Landlords can invoice the consumption of the charging current to their tenants via the MID calibrated electricity meter.

Properties

Accuracy class:	B
Calibration:	MID
Current:	0,25-5 (30) A, 0,25-5 (32) A, 0,25-5 (40) A, 0,25-5 (45) A, 0,25-5 (50) A, 0,25-5 (80) A
Display mode:	LCD
Frequency:	50
LED:	1 flashing / pulsing
Model:	efuturo electricity meter for top-hat rail, MID-calibrated, 3-phase, 11 or 22 kW
Packaging height, mm:	76
Packaging length, mm:	122
Packaging width, mm:	96
Pole type:	3-phase
Power requirement:	3 x 230 V / 400 V
Pulse output:	1000 pulses/kWh
Working temperature:	- 25° up to + 55°C
