### Description

- universal usage
- ideal for the correct and careful removal of adhered front windscreens as well as most rear and side screens
- with large guide rollers, which require less power and minimise the danger of wire snapping
- wire lead directly in front of the windscreen, therefore omitting the costly disassembly of trim parts in most cases
- easy one-man operation
- especially high-quality pump suction for secure windscreen holding
- suction power per disc up to 25 kg
- in plastic bag
