

Camshaft belt tension gauge, 100mm

Article No.: 150.3015

EAN: 4042146195857

Promotional price: €78.00 *

Description

- for inspection of the timing post tensioning
- for the timing belt on the combustion engine
- with mm scale
- 10N (~1kp corresponds a revolution)
- special tool steel

Application range / for: Can be used everywhere there is the technical data for the allowable through bend of the timing belt in mm in a certain power in N or kp revolutions

Properties

Adjusting nut pitch:	1,0/10,0 mm
Adjusting nut revolution around 360°:	1.0
Application in general:	for measuring the tension of drive belts
Function attribute 1:	mechanical
Material1:	special tool steel
Measurement mode:	mechanical (spring)
Packaging contents:	1
Packaging height, mm:	44
Packaging length, mm:	166
Packaging width, mm:	110
Readout:	scale
Scale division:	in mm
Total length mm:	100.0
Weight [g]:	260
Working range / scale:	0,0-20,0 mm
