

## Universal 3 arm puller for using with hydraulic cylinder

Article No.: 640.2420

EAN: 4042146305386

Promotional price: €1,839.50 \*

### Description

- consists of traverse and legs
- traverse arm radial revolving and interchangeable
- legs are adjustable in the working depth
- uniform load distribution and centered tightening
- without hydraulic compression spindle / without hydraulic cylinder
- without hydraulic pump
- special tool steel

### Properties

|                                 |                                 |
|---------------------------------|---------------------------------|
| Arm tip depth E:                | 16                              |
| Arm total depth F:              | 32                              |
| Arm width G:                    | 32                              |
| Fast adjustment:                | no                              |
| Function attribute 1:           | adjustable in the working depth |
| Height of arm tip D:            | 17                              |
| Material1:                      | special tool steel              |
| Max. torque Nm:                 | -                               |
| Number of arms:                 | with 3 arms                     |
| Packaging height, mm:           | 176                             |
| Packaging length, mm:           | 674                             |
| Packaging width, mm:            | 273                             |
| Weight [g]:                     | 27000                           |
| jaw depth B in mm:              | 270                             |
| max. KN:                        | 200,0                           |
| max. t:                         | 20                              |
| maximum clamping width A in mm: | 500                             |
